COMPANY OVERVIEW

Our Company

Invoke Infrastructure is an innovative IT solutions provider that helps organizations across all industries unleash the power of information in order to gain valuable insights.

These insights will help you run your organization efficiently and help you increase profitability through the use of technology. We provide your organization or business with turnkey technologies, consulting services, as well as innovative ICT-related solutions.

Our top-class ICT solutions are guaranteed to ensure your sustainability and give your operation a competitive edge over the competition.

Our Mission

Our mission is to be a top ICT consultancy and service provider that identifies and leverages business opportunities, bridging the gap between technology and our clients' core operations. We deliver integrated and comprehensive solutions by collaborating with various organizations to offer innovative business and information technology solutions for the future.

Our Vision

Our vision is to become a premier provider of innovative and cost-effective information technology and business solutions, addressing both current and future challenges for our clients, ensuring they gain a competitive edge.

Our Core Values

‘TO CO-CREATE SUSTAINABLE AND BESPOKE SOLUTIONS WITH AGILITY’.

- Innovate through Co-Creation
- Agility.
- Excellence Through Delivery.
- One with Client.
- Right Fit.

OUR SERVICES

Energy Solutions

- We offer an innovative inverter system that seamlessly transfers energy from your battery bank during power outages.
- Our state-of-the-art inverter technology efficiently converts the DC power stored in your batteries to reliable AC electricity, powering your business even when the grid goes down.
- With our reliable inverter system, you can enjoy an uninterrupted power supply and peace of mind knowing that you and your Business is always prepared for unexpected power outages.

Access Control

- Invoke Infrastructure provides cutting-edge biometric access control solutions for secure areas, allowing only authorized personnel to gain entry through unique characteristics such as fingerprints and facial features.
- Our advanced system ensures strict control and management of access to restricted areas, providing a high level of security for your business or organization.
- With our biometric access control, you can have peace of mind knowing that your premises are protected by the latest technology, making unauthorized access virtually impossible.

LAN and WAN

- Our team is dedicated to helping our clients overcome their network challenges by providing a range of services, including analysis, design, and implementation.
- We take a personalized approach, taking the time to understand your current IT infrastructure and business objectives.
- With this information, we work closely with you to develop a functional, reliable, and manageable LAN/WAN structure that meets your unique needs.

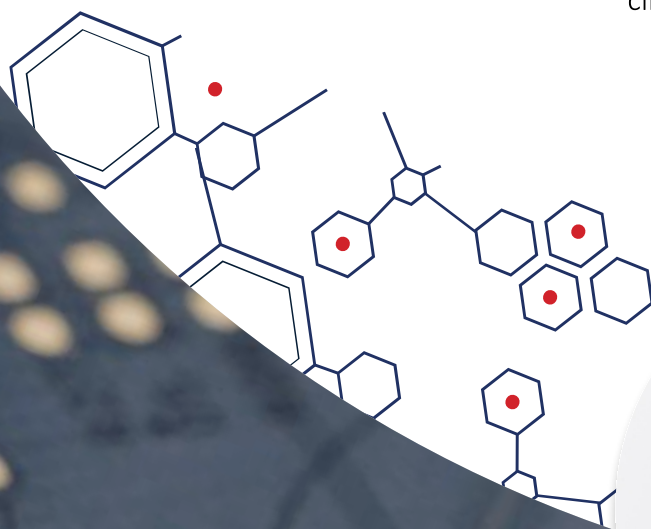

Data Centre Management

- At Invoke Infrastructure, we provide top-tier data management services designed to create a comprehensive platform for data aggregation and analytics.
- Our individually tailored programs cover all aspects of data management, ensuring value-driven data usage for your business or organization. Our team of experts specializes in implementing customized data management solutions that meet your unique needs.
- We cover all data management functions, including data acquisition, storage, analysis, and reporting, to help you make informed decisions that drive business growth.

Fibre Optics

- Provider of expert Fibre Optic Services & Cabling solutions, catering to the IT and Telecom industries.
- Our comprehensive suite of services includes Consultancy, Engineering, Design, Installation, and Maintenance of Fibre networks, both Outside and Inside plant. We specialize in delivering cutting-edge solutions for Structured Cabling and Fibre to the Home (FTTx) installations.
- Our proven track record of providing tailor-made solutions has enabled us to build long-term relationships with our clients. At Invoke Infrastructure, we are committed to delivering world-class Fibre Optic Services & Cabling solutions to meet the diverse needs of our clients.

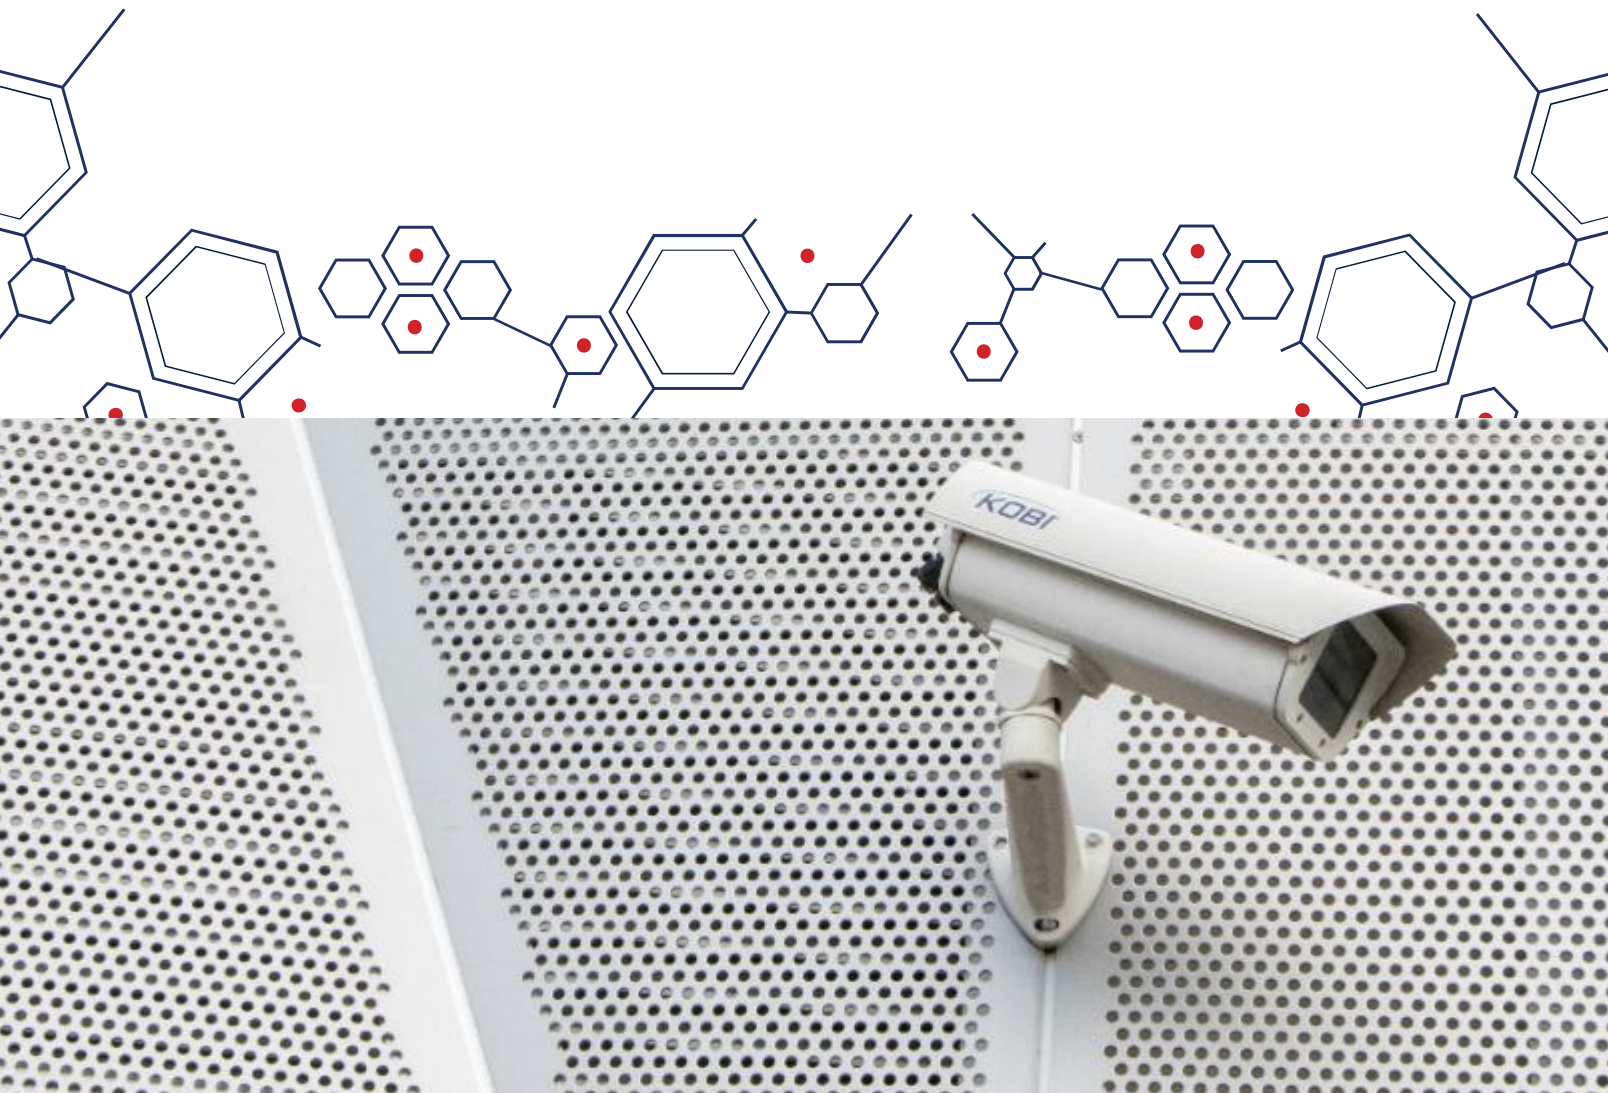

CCTV

- Invoke Infrastructure provides expert CCTV security camera setup services to ensure your property is well-protected.
- Our experienced team will conduct a thorough assessment of your property and identify high-risk areas that require surveillance.
- We will provide you with the best advice and recommendations for the right CCTV setup to provide comprehensive coverage and optimal security.

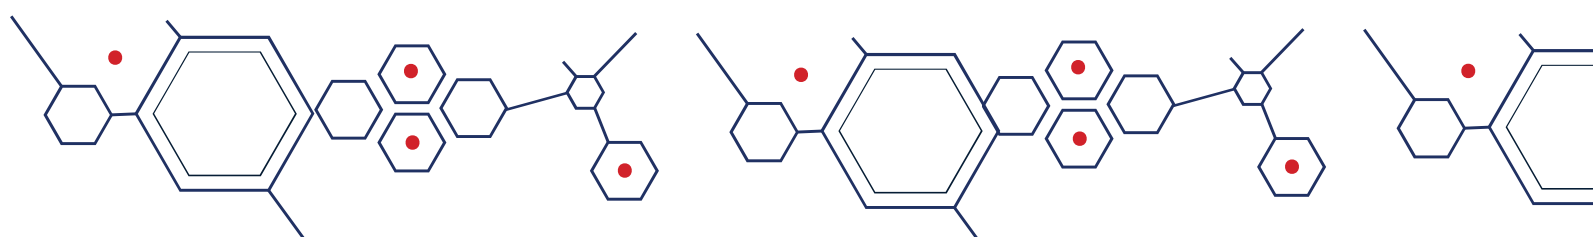

Project Management

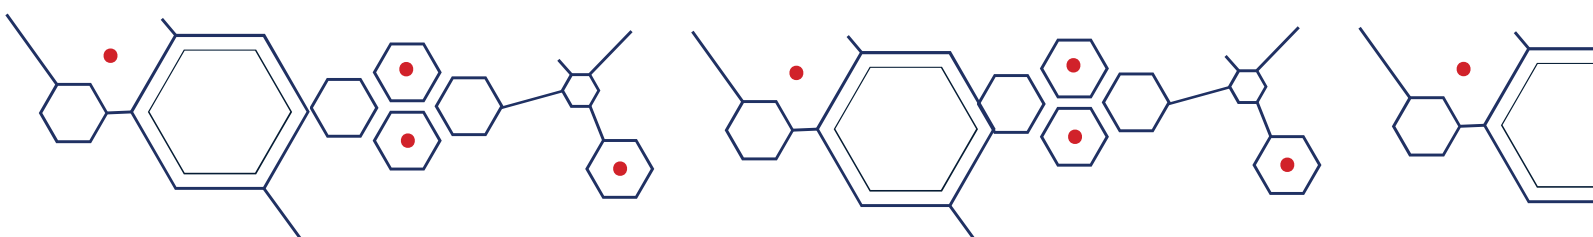

- Invoke Infrastructure offers expert IT Infrastructure Project Management services to ensure the successful completion of your specific IT infrastructure projects.
- Our experienced Project Manager takes charge of the direction, planning, coordination, implementation, execution, control, and completion of your IT infrastructure projects in accordance with the approved scope, timelines, and budget.
- We ensure that your project is delivered on time and within budget while adhering to the highest quality standards.
